## **ONE OCEAN RESORT OPENS FULL-SERVICE OCEANFRONT SPA** *Portion of treatment proceeds to benefit Beaches Sea Turtle Patrol*

ATLANTIC BEACH, Fla (August 7, 2008) – One Ocean Resort, the First Coast's newest luxury resort property, announces the opening of its \$2.1 million Spa at One Ocean. The five-star facility is the only full-service oceanfront facility in the North Florida area. In addition, One Ocean Resort will donate 10% of the proceeds from its signature treatment, *Treasure of the Sea*, purchased between September 1 and November 30, 2008, to Beaches Sea Turtle Patrol ([www.bstp.net](http://www.bstp.net)), an all-volunteer local non-profit organization committed to the preservation of endangered sea turtles in Atlantic, Neptune and Jacksonville Beaches.

"One Ocean Resort is honored to partner with Beaches Sea Turtle Patrol to raise much-needed funds and awareness for their organization," said Alia Trickey, Spa Director for One Ocean Resort. "Community stewardship is such an important part of One Ocean's philosophy, and we're eager to share our love of the ocean and its creatures with our guests."

Among traditional massages, facials and salon services, the Spa at One Ocean features a Vichy Room, VIP Suites for couples and groups, private men's and women's relaxation areas, a meditative lounge with ocean views, a floor-to-ceiling aqua sculpture and organic Juice Bar. "Our intimate oceanfront setting coupled with intuitive staff and luxury product lines will offer a unique and relaxing experience for resort and local guests," said Trickey.

Phytomer, the primary product line chosen for One Ocean, reflects the spa's marine surroundings. The all-natural skincare products derived from seaweed, algae and pure seawater harvested off the Brittany Coast of France offer health and wellness benefits such as increased cellular turnover, collagen and elastin production in the skin and protection against free radicals.

"We chose the Phytomer line to incorporate the Atlantic backdrop into each spa treatment. Guests will feel completely in the element of the ocean, and benefit from the therapeutic marine ingredients," said Trickey.

The spa features the Atlantic Beach vista in its design elements. Hues of blue, aqua, green, sand and pearl accompanied by fabrics, tiles and art will were chosen to deliver elemental relaxation to spa-guests.

### **About One Ocean™ Resort Hotel and Spa**

Located at One Ocean Boulevard in Atlantic Beach, Florida and only 25 miles from Jacksonville International Airport, the luxury resort represents the first to be opened under The Gallery, which is Remington's new signature collection of luxury resort hotels.
